 Discussion has not  
 yet been made on whether  
 aircraft A-1 will be  
 involved in operations.

There has, at least in the  
 past, been involvement in  
 transport of illicit drugs  
~~etc~~ If carrying arms, it is  
 not a large quantity.

of air drop.

56 1/2 Percept is that either A1  
or B2 will air drop material  
and B1 will follow, but  
on water & pickup contact;

One of these aircraft will be  
used as a decoy or to run  
interference for the other  
two.

All three working together.
